Fundraising

For our fundraising customers, we offer our 16-ounce soy jar candle. We typically restrict the fundraiser to four scents of your choice. We also provide your organization with a recommended selling price, although, the final selling price is entirely up to you. We usually require a 3 – 4 week turnaround time between when the ordering sheets are turned into us and the final delivery date. Some of the benefits of choosing Pineapple House Creations are:

- You only pay for what you sell. In other words, if you only sell part of a case, we do not make you purchase the whole case.
- We will deliver the final product to your school or organization.
- We guarantee every candle we sell. If there is a problem, the candle will be exchanged for another, no questions asked.
- There is no start up costs!
- The potential for profit is great!
- We will provide all members in the organization with ordering sheets.
- Money is not due until one week after delivery.
- We will provide a customized label on each jar with your organizations logo, if 100 candles or more are sold.
